Progress Recap - 29 Juni 2026

v1.0

Summary Updates

1. Security Fixes

- Profile Photo Upload - Added MIME type validation
- Client-side file size validation (max 2MB)
- Checkout Flow - Auth check + redirect to login
- Login/Register - "Intended URL" banner added

2. User Dashboard URL Redesign

Page	URL	Route Name
Dashboard	/dashboard/user/home	user.dashboard.home
Purchases	/dashboard/user/purchases	user.purchases
Profile	/profile	profile.edit

3. Bug Fixes

- Fixed Admin Access Bug - Pengaturan Akun link
- Fixed Route Not Found Error
- Simplified navigation in UserLayout

Test Users

Type	Email	Password	Access
Admin	febryanustambling54@gmail.com	password123	/hyadms/malemologin/ds
User	budi@example.com	password123	/dashboard/user/home

Files Modified

Backend (PHP)

- app/Http/Controllers/Admin/ProfileController.php
- app/Http/Controllers/Public/CheckoutController.php
- app/Http/Controllers/Auth/AuthenticatedSessionController.php
- app/Http/Controllers/Auth/RegisteredUserController.php
- app/Http/Controllers/Public/UserDashboardController.php
- app/Http/Controllers/Public/DownloadController.php
- app/Models/User.php

Frontend (Vue)

- resources/js/Pages/Admin/Profile/Edit.vue
- resources/js/Pages/Auth/Login.vue
- resources/js/Pages/Auth/Register.vue
- resources/js/Layouts/UserLayout.vue

- resources/js/Pages/User/Dashboard.vue
- resources/js/Pages/User/Purchases.vue
- resources/js/Pages/Public/Products/Index.vue

Routes & Database

- routes/web.php
- database/migrations/2026_06_29_120732_add_uuid_to_users_table.php

ðŸ“Š Project Statistics

Metric	Count
Total Models	34
Total Controllers	63
Total Migrations	50
Vue Pages	70
Vue Components	32
Test Files	19

ðŸŽŒ Readiness Assessment

Module	Status
Backend	âœ… 90%
Frontend	âœ… 85%
Blog Module	âšŒ 70% (0 posts)
Products Store	âœ… 85%
Finance Module	âœ… 85%
Security	âœ… 95%
User Dashboard	âœ… 95%

Overall: ~85% ready for deployment

ðŸ”– Current URLs

Public

- Homepage: https://greyhound-quicken-schedule.ngrok-free.dev/
- Products: /products
- Blog: /blog
- Login: /login

User Dashboard

- Dashboard: /dashboard/user/home
- Purchases: /dashboard/user/purchases
- Profile: /profile

Admin (Hidden)

- Admin Login: /hyadms/malemologin/ds
- Admin Dashboard: /admin

ðŸ“ Next Steps for Deployment

1. ☐ Create sample blog posts (0 posts currently)
2. ☐ Set APP_DEBUG=false for production
3. ☐ Setup MAIL configuration
4. ☐ Add PAKASIR production keys
5. ☐ Run tests
6. ☐ Push to GitHub
7. ☐ Connect to Railway/Render
